

**APECTEL DSG  
Self funded Project**

**Extension of the Network of  
APEC e-Government Research  
Center**

**APECTEL Self funded Project :**

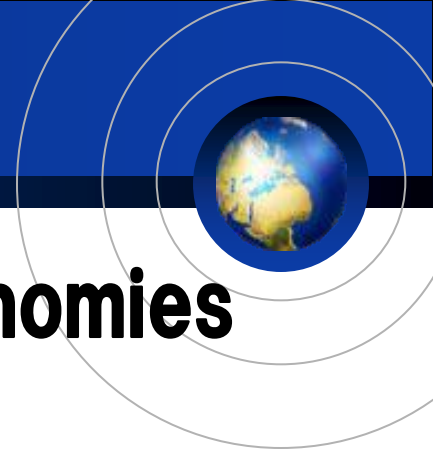

**Name of Committee/Working Group: TEL DSG**

**Title of Project: Extension of APEC e-Government  
Research Center**

**Proposing APEC Economy: Japan**

**Co-sponsoring APEC Economies:  
Singapore, Thailand, Chinese Taipei, USA,  
Indonesia, Philippines, China**

# Co-Project Overseers

## Activities with 8 Institutions in 8 Economies

### Project Overseer and co-chair

- **(Japan)** Toshio Obi, Director, Institute of e-Government, Waseda University:

### Co-chairs

- **(Chinese Taipei)** T. Y. Huang, Deputy Director, Taiwan E-Governance Research Center (TEG)
- **(Thailand)** Sak Segkhoonthod, Director, Electronic Government Agency, (EGA), MDES
- **(Singapore)** Ashok Kumar Director, eGL Institute of Systems Science National University of Singapore:

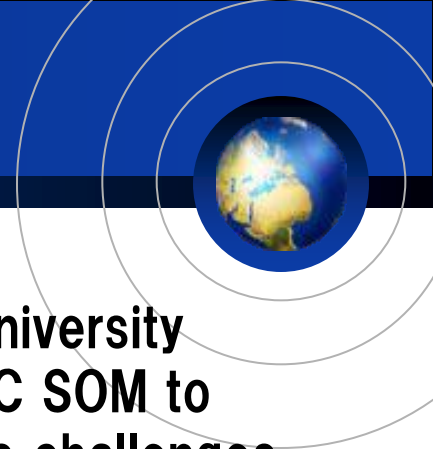

- **(USA)** Prof. JP. Auffret, CIO  
Program ,Graduate School of Business,  
George Mason University
- **(China)** Dean C . Yang, Institute of e-  
Government, Peking University
- **(Philippines)** Director and Prof. Magno,  
Institute of Governance, La Salle University
- **(Indonesia)** Director, Prof. H. Suhono,  
Center for Smart Government, Bandung  
Institute of Technology

- **Project Start Date:**
  - **May 1, 2013**
- **Project End Date:**
  - **November 30, 2018**
- **Cost :**
  - **100,000 US\$**
- **Activities :**
  - **Research / Survey / Data analysis / Training / Education / Governance**
  - **Workshop / Forum / Seminar**

# Brief description of Project its purpose and the principal activities

- The APEC e-Government Research Center at Waseda University Tokyo was established in 2005 by the approval of APEC SOM to provide assistance in looking for solutions to the various challenges of e-Government.
- It also offers recommendations for the improvement of e-Government implementation. As part of the Center's commitment to address e-Government issues, the Center is working on [e-APEC] which APEC SOM commissioned to PECC to provide an assessment of progress in implementing the e-APEC strategy since 1995.
- The Center has organized 6big workshops- Danang in 2012, Honolulu in 2013, Singapore in 2014 , Tokyo in 2015, Milan 2016 and Moscow in 2017 to invite many experts from Economies to promote the e-Gov. activities in the region.

# Justification of the Project

- After one decade since the first evaluation stage of “e-APEC,” the Center is again to be challenged with the task of monitoring its progress while providing recommendations for future improvement.
- The Center will also organize both the workshop/training and research on online services/applications/public safety/regulation as a continuation of the past activities to develop sustainable framework of e-Governance.
- The Center will continue to be in contact with the EC and HRD Committee to ask for cooperation as inter Fora activity as well as workshops with international organizations such as OECD and World Bank recommended by APEC TELMINs in Okinawa in 2010 as well as TEL Strategy in 2015 in Malaysia.

# Executive Board

- **The center had organized the advisory committee composed of 8 experts from member Economies to discuss the important issues at the committee meeting.**
- **And the Committee has recommended to form the following Executive Board for this extension of the project.**
- **8 leading institutions on e-Government in APEC region cooperate with each other as the network of the Center.**
- **These institutions as Executive Board are Japan's Waseda University Institute of e-Government, National University of Singapore, Thailand's E-Government Agency (EGA) of MICT and Chinese Taipei's Taiwan E-Governance Research Center**
- **The heads of 8 institutions have been working together as project overseers to implement the joint program. The recent meetings were held in Milan in 2016 and Moscow in 2017.**

# Board of Directors Meeting APEC e-Government Research Center in Moscow 2017

## **Principle Activities**

**As a team conducting APECTEL project ,the planned principal activities of the Center with sustainable continuity are as follows:**

### **@ Continuity for sustainable capacity building with multiyear**

- 1. Monitoring and assessing on “ e-APEC”preparedness**
- 2. Maintaining data bank for e-Government readiness for member Economies**
- 3. Organizing the workshops/Forums**
- 4. Publishing the reports on e-government activities**
- 5. Conducting short CIO training with both onsite and distance online system if applicable**

# Activities in Dec 2017 – May 2018

- **Activities December 2017– May 2018**
- **Based upon successful activities in the previous period**
- **Silver Innovation Symposium at AARP with AARP–ITIF in Dec. 4**
- **Publication : Report on e–Aging in APEC region**
- **Speaker at United Nations CSD special event on e–Ageing at UN Hqs in Feb.2**
- **Waseda University–MIC symposium on future of Japan in March 6**
- **Speaker at Shanghai Forum (China) in May 26**
- **Report on Silver innovation by Waseda Univ.**
- **Joint research on healthy ageing by Renmin University (China) and Waseda Univ.**

# Evaluation Indicators of E (Digital) – Government by Waseda University

## 10 Indicators

- Network Infrastructure Preparedness (NIP)
- Management Optimization (MO)
- Online Services (OS)
- National Portal (NPR)
- Government Chief Information Officer (GCIO)
- E-Government Promotion (EPRO)
- E-Participation (EPAR)
- Open Government Data (OGD)
- Cyber security (CYB)
- The emerging technology in e-government (EMG)

# New Global Trends in e-Gov.

- **Digital Government / Mobile Government**
- **Cloud Computing / Data center**
- **Harmonization between Central and Local governments**
- **IoT and AI for e-Government**
- **Smart Silver Cities as urbanization issue**
- **Society 5.0 (Japan) – Transformation to Digital Economy with Innovative government**

# <Future activities and Agenda>

- **Creating the evaluation methodology for Digital government in the region**
- **Research on Digital Government friendly for **Ageing Society****
- **CIO **Univ. training** programs Among US, Japan and Russia**
- **Online workshop for development of courseware**
- **Book publication on **Digital innovation****
- **5<sup>th</sup> Japan–China Forum on Ageing in China 2018 June Tokyo**
- **Technical assistances to developing economies**

**Thank you !**  
**Prof. Dr. Toshio Obi**

**Waseda University, Japan**
